Charlotte Radiology Selects IMAGINeradiology™

Charlotte, NC – Technology Partners, Inc. (dba IMAGINE Software), a leading provider of medical billing technology, announces that Charlotte Radiology, one of the largest radiology practices in the United States, has selected the IMAGINeradiology™ practice management system for their billing and collection needs.

After a careful and exhaustive year-long search of the major systems within the marketplace, IMAGINeradiology™ was selected for its advanced technological capabilities, efficient automation, flexibility, and for providing a high level of service and support to their customers.

“We made the decision for IMAGINE based on a large list of decision criteria that we developed, and IMAGINE scored the highest,” stated Scott Roehrig, Director of Billing Operations for Charlotte Radiology. “Currently, our patients are receiving sub-specialized imaging services and the latest technology at their visits with us. The use of IMAGINE for our billing and practice management systems will allow Charlotte Radiology to provide that same high-level of quality and customer service on the back end of our patients’ imaging experience. IMAGINE’s product maturity and their team approach to customer service was refreshing, and we are looking forward to achieving great success together.”

“We are excited to be working with Charlotte Radiology’s personnel on this important project. Charlotte Radiology wants to provide the highest level of patient services, reduce their costs and experience a short ROI, which IMAGINE currently delivers to the market,” says Frank Hayes, Vice President of Sales for IMAGINE Software.

“We are very satisfied with our decision to implement IMAGINeradiology™,” added Roehrig.

About Charlotte Radiology

Charlotte Radiology is located in Charlotte, North Carolina, and has served Mecklenburg and surrounding counties since 1967. As one of the largest and most progressive radiology groups in the southeast, Charlotte Radiology employs more than 70 radiologists with diverse and specialty training in everything from mammography to musculoskeletal and pediatrics to interventional radiology, and serves more than 10 hospitals in the Carolinas, as well as owning and operating 12 breast centers, and jointly owning and reading for Carolinas Imaging Services.

About Technology Partners, Inc. (dba IMAGINE Software) and IMAGINeradiology™

Technology Partners, Inc. has led the way in innovation of automated medical business management solutions for eight years with its flagship product, IMAGINeradiology™. A vast array of Microsoft-inspired tools and features allow IMAGINeradiology™ to offer complete integration. The IMAGINeradiology™ System has been heralded for its ability to streamline the billing/collections process, improve staff productivity and increase practice profitability with unsurpassed processes.
