Fair Lawn Diagnostic Imaging Center Selects IMAGINERadiology™

Charlotte, NC – Technology Partners, Inc. (dba IMAGINE Software), a leading provider of medical billing technology, announces that Fair Lawn Diagnostic Imaging Center (FLDIC) of Fair Lawn, New Jersey, has chosen IMAGINERis and the IMAGINERadiology™ practice management system for their RIS/billing and collection needs.

After an extensive search of the major systems within the marketplace, IMAGINERadiology™ was selected for its superior technological ability, straightforward integration, and efficient automation, all helping to streamline operations while reducing costs.

“We made the decision for IMAGINE based on a list of criteria that we felt were important to our business and its immediate needs. IMAGINE was the leader in every aspect at the end of our analysis,” stated Fitzgerald Silvera, Executive Director of FLCIC. “The use of IMAGINE for RIS/ billing and practice management systems will allow FLDIC to provide an improved and efficient level of front end and back end customer service. Our medical director, Dr. Ketang Modi D.O., was impressed with the user friendliness of the systems, as well as excited about the web-based capabilities and ease of integration to our current PACS. IMAGINE is a welcome change from our legacy system, and we are looking forward to achieving great success together.”

“We are very excited to be partnering with Fair Lawn Diagnostic Imaging Center,” says Rocky Sebastian, Regional Account Executive for IMAGINE Software. “By choosing IMAGINE products, we feel that FLDIC will be able to streamline their office procedures as well as maximize their reimbursements.”

About Fair Lawn Diagnostic Imaging Center (FLDIC)

FLDIC is located in Fair Lawn, New Jersey, and has served the Bergen County area and surrounding counties since 1987. FLDIC is a multi-modality imaging center, providing open MRI, CAT scan, X-ray, mammography, dexa and ultrasound. They facilitate four radiologists with specialties in body imaging, MRI, mammography and ultrasound.
