Technology Partners, Inc. Ranks on the 2009 *Inc. 5000* with Growth of 60.1%

NEW YORK - Inc. magazine has ranked Technology Partners, Inc. No. 3,752 on its third annual *Inc. 5000*, an exclusive ranking of the nation's fastest-growing private companies. The list represents the most comprehensive look at the most important segment of the economy—America's independent-minded entrepreneurs.

"Savvy trend spotters and those who invest in private companies know that the *Inc. 5000* is the best place to find out about young companies that are achieving success through a wide variety of unprecedented business models, as well as older private companies that are still expanding at an impressive rate," said *Inc. 5000* Project Manager Jim Melloan. "That's why our list is so eagerly anticipated every year."

The 2009 *Inc. 5000*, unveiled on www.inc.com, serves as a unique report card on the U.S. economy. Despite the ongoing recession, aggregate revenue among the companies on the list actually increased to \$214 billion, up \$29 billion from last year, with a median three-year growth rate of 126 percent. The *Inc. 5000* are responsible for creating more than 1 million jobs since their founding, making the list perhaps the best example of the impact private, fast-growing companies can have on the economy.

This year's list also offers a preview of which industries are poised for growth in coming years. With an average growth rate of 667 percent, Insurance ranked as the top industry overall. Government Services was the top industry gainer with 252 companies on this year's list, up from 135 last year. Health is the top industry by both total revenue (\$22.7 billion) and total employment (156,223 jobs).
