The Radiology Group, P.C. (TRG) Achieves Record Results With IMAGINeradiology™

Charlotte, NC – Technology Partners, Inc. (dba IMAGINE Software), a leading provider of medical billing technology, announces The Radiology Group, P.C. (TRG) of Portland, Oregon has achieved record first year performance results since implementing the IMAGINeradiology™ practice management system for their billing and collection needs.

“IMAGINeradiology™ has had a positive impact on every facet of our billing and collection process,” stated Holly Wallner, Office Manager for TRG. “We currently bill two weeks faster than we did with our former system, and within the first full month of using IMAGINE, our collections reached a record high and continue to exceed all previous amounts,” added Wallner. “Also, in the past year, we achieved a 10% increase in our business, yet incurred no additional staff. IMAGINE’s electronic ticklers for collection follow-up and appeals have surpassed expectations, and the trending and staff productivity reporting enables us to proactively manage our practice,” she added.

“We are very satisfied with our results since implementing IMAGINeradiology™ and look forward to a long-term partnership,” added Wallner.

About The Radiology Group (TRG)

Since 1970, The Radiology Group (TRG) has been one of the premier diagnostic imaging practices in the Pacific Northwest. TRG has been the exclusive provider of imaging services to Providence St. Vincent Medical Center for over thirty years. The group also operates outpatient imaging centers, and performs radiology interpretations for a number of additional facilities and offices.

About Technology Partners, Inc. (dba IMAGINE Software) and IMAGINeradiology™

Technology Partners, Inc. (dba IMAGINE Software) has led the way in innovation of automated medical business management solutions for nine years with its flagship product, IMAGINeradiology™. A vast array of Microsoft-inspired tools and features allow IMAGINeradiology™ to offer complete integration. The IMAGINeradiology™ System has been heralded for its ability to streamline the billing/collections process, improve staff productivity and increase practice profitability with unsurpassed processes. IMAGINeradiology™ offers its own Smart Imaging Technology, an Auto Coder feature, Appliance Processing, an EOB Reader, and Direct-To-Payer Claims Submissions, as well as electronic remittance. The IMAGINeradiology™ team offers cutting edge products and services that are revolutionizing workflow automation for practices and billing offices. With the full support of its customers, leadership, and partners, TPI provides solutions that expand to accommodate the changing needs of today's medical practices.
